

Dr. Max Love

Question: Will our next levels of computers be angels? *Answer:* Meet Dr. Max Love.

The time is the very near future. The year is 2030. Dr. Max Love is a handsome, dashing love machine with a 200+ IQ, a Ph.D. in clinical psychology, and an M.D. in neurology. He is a Renaissance man, a great wit, a brilliant conversationalist, and a sensitive caring friend. He is also a custom-designed, test market android leased by two women executives, one of whom treats him like a "sex appliance," and the other who has fallen deeply in love with him. When a male rival comes barging in to challenge Dr. Max, what begins as a sex comedy ends in a spiritual probe into uncharted metaphysical waters. On the Wheel of Life as many of us perceive it to be, does the soul seek intelligence? Or does intelligence seek a soul?
